

NVR H series

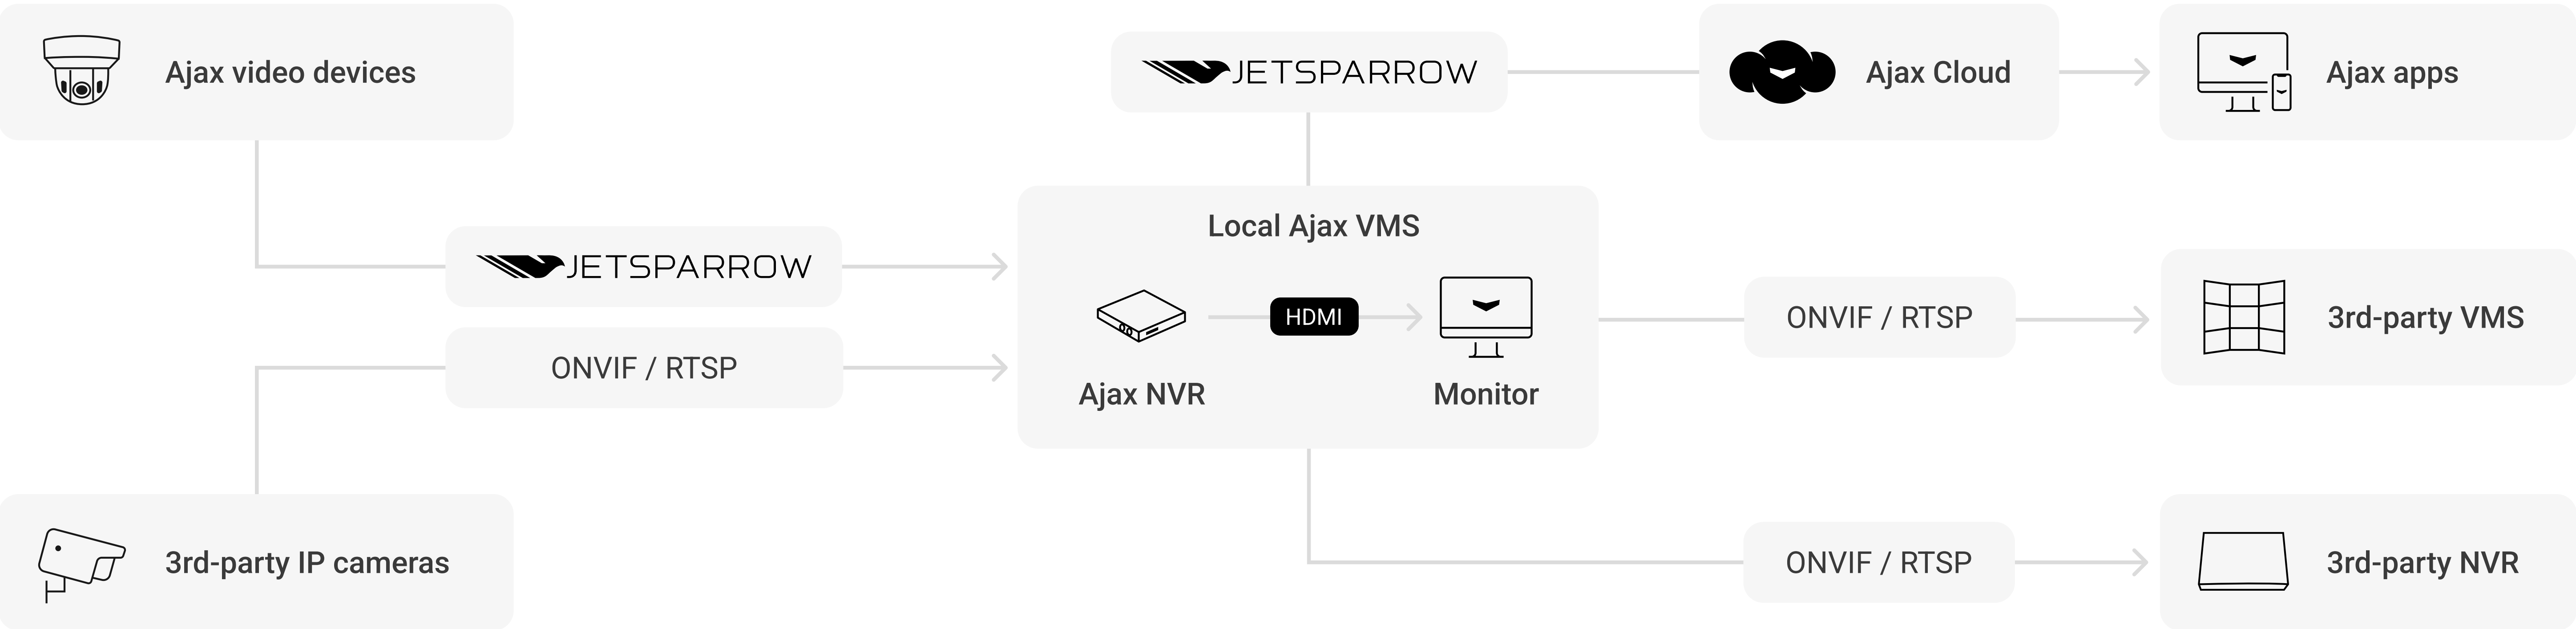

Network video recorders with HDMI output

Product versions

NVR HAC (8-ch)	NVR HAC (16-ch)
up to 8 channels	up to 16 channels
NVR HDC (8-ch)	NVR HDC (16-ch)
up to 8 channels	up to 16 channels
powered by a low-voltage power supply	powered by a low-voltage power supply

Ajax network video recorders integrate Ajax video devices and third-party IP cameras into a single ecosystem. In addition to in-app control, NVR H series devices feature an HDMI output that enables users to view live and archived footage directly on a connected display. This makes the series an ideal solution for small to medium-sized businesses, private residences, offices, and other sites requiring a local video management system.

Local video management experience

- On-site video surveillance without an internet connection
 - Local video management and archive access
 - Customizable virtual video wall and slideshow mode
- HDMI port for connecting a display
 - Two USB ports for a keyboard, mouse, or flash drive

Remote video management via Ajax apps

- Proprietary JetSparrow technology for instant, encrypted video streaming and smooth archive navigation
- Archive synchronization with security system events
- High-resolution visual verification of alarms via video scenarios
- Instant transition from notifications to on-site video recordings
- Fast archive navigation using event timeline, calendar view, and search filters

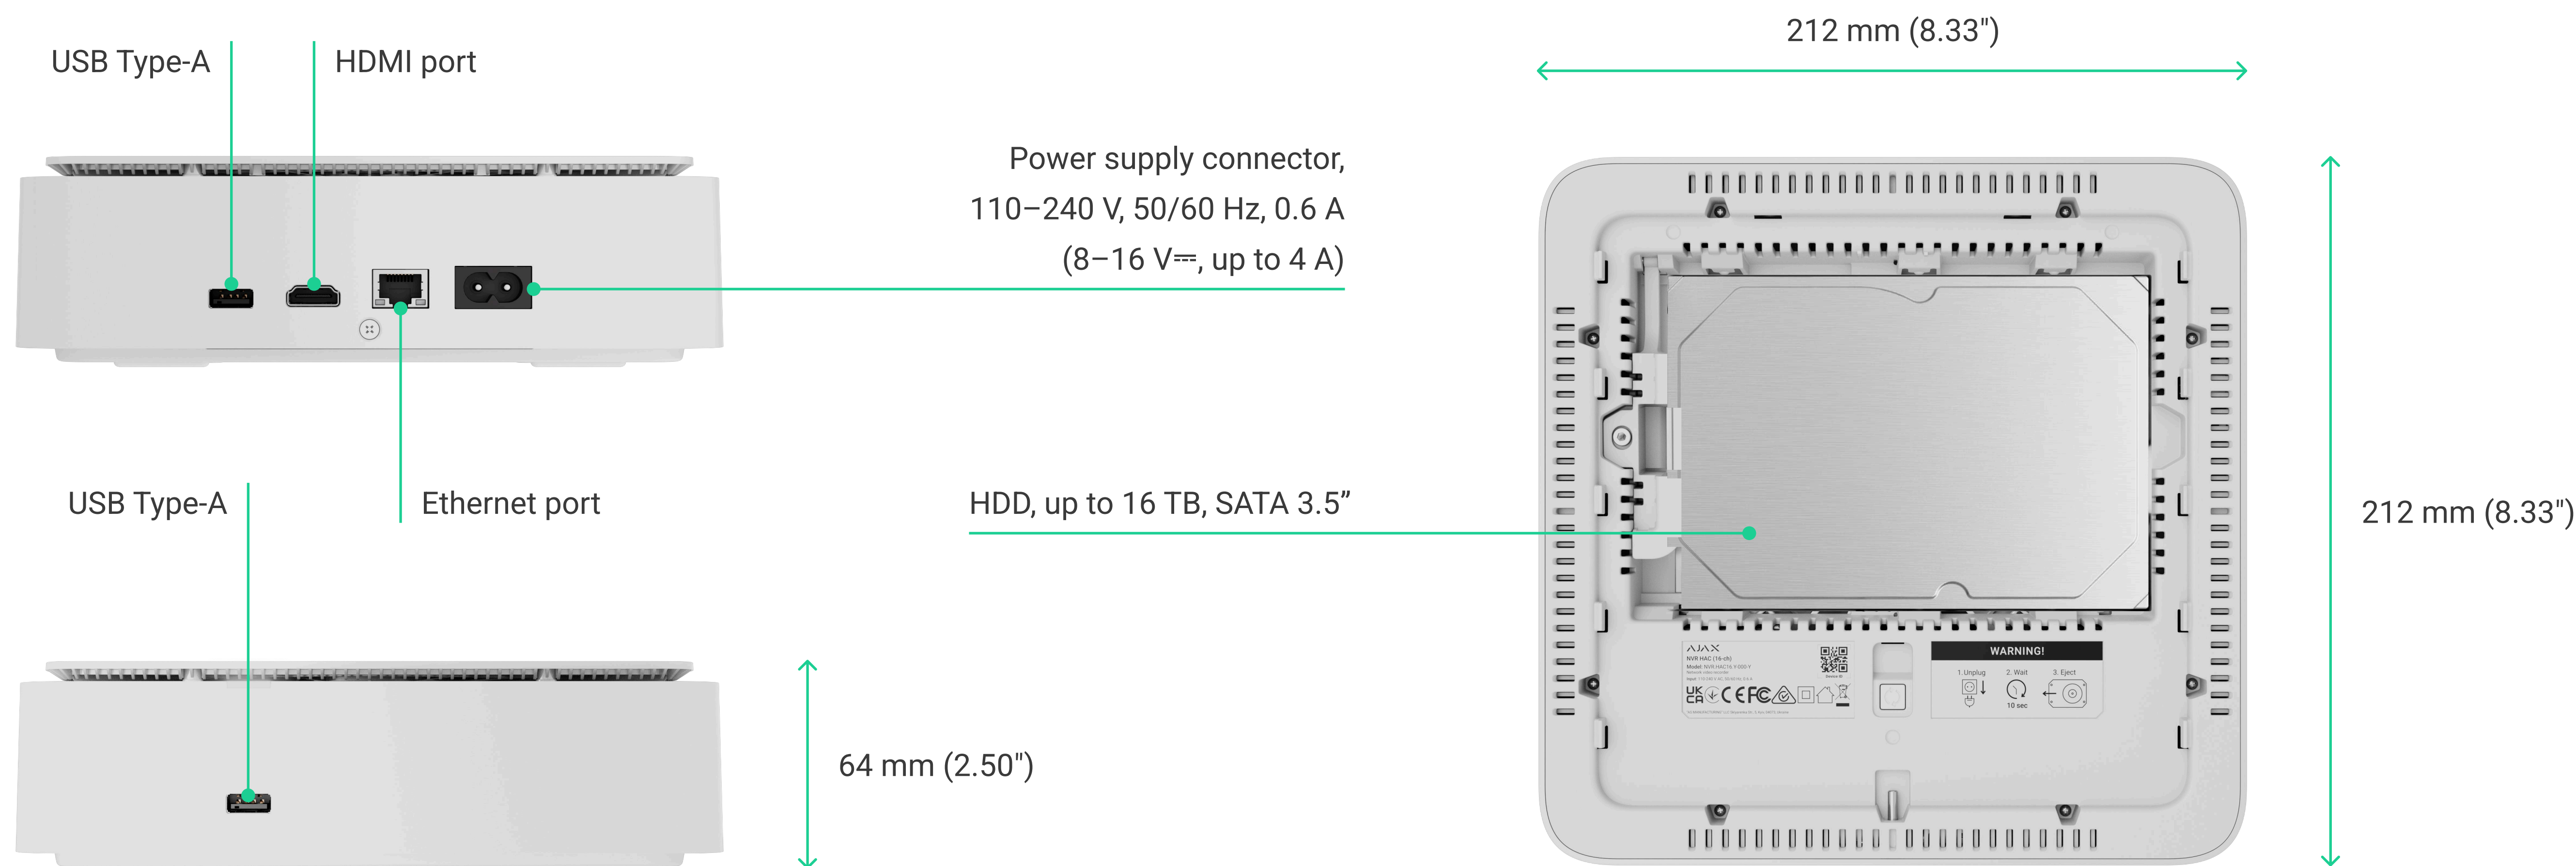

Robust security without privacy compromises

- TLS-encrypted video streams
- User-controlled access to video content
- Passwordless camera authentication
- Secure video export with digital signature verification
- Multi-tiered account protection: passcodes, biometrics, and two-factor authentication
- Session control for additional account safety
- Exclusive owner access to content stored on the hard drive
- NDAA compliance

Easy installation and maintenance

- SmartBracket for fast and secure installation
- Adding to an Ajax system via QR code
- Remote control and configuration via Ajax apps
- Configurable motion detection zones for connected cameras
- Support for ONVIF/RTSP authorization
- Automatic search for available cameras on the local network
- Real-time NVR health monitoring, including HDD state

HDMI cable and HDD are not included in the complete set.

Video stream IP cameras ONVIF ¹ RTSP Storage hard drive with up to 16 TB capacity (SATA connectivity, 3.5" size) HDD is not included in the complete set Decoding formats H.265/H.264 Bandwidth incoming: up to 80 Mbps outgoing: up to 40 Mbps	Ports Full HD HDMI Ethernet RJ45 USB 2 × USB Type-A To connect an interface device (e.g., mouse, keyboard, etc.) or a flash drive	Key features JetSparrow Proprietary Ajax protocol for fast and secure video transmission Motion detection Built-in software to detect movement in the frame Built-in video management system Visual verification of system alarms
