Firewalla is an all-in-one cyber security solution. It is an intelligent shield that connects to your router and secures all of your digital things. It can protect your family from cyber threats, block ads, control kids' internet usage, and even protects you when you are out on public Wifi.

Key Features and Benefits

Complete Cyber Security Solution

- Firewalla box is a Firewall, IPS, IDS, with added behavior analytics, a network management station, all combined into one!
- Continuously scans for security vulnerabilities and risks.
- Firewalla's Intelligent analytics for abnormal behavior warning.
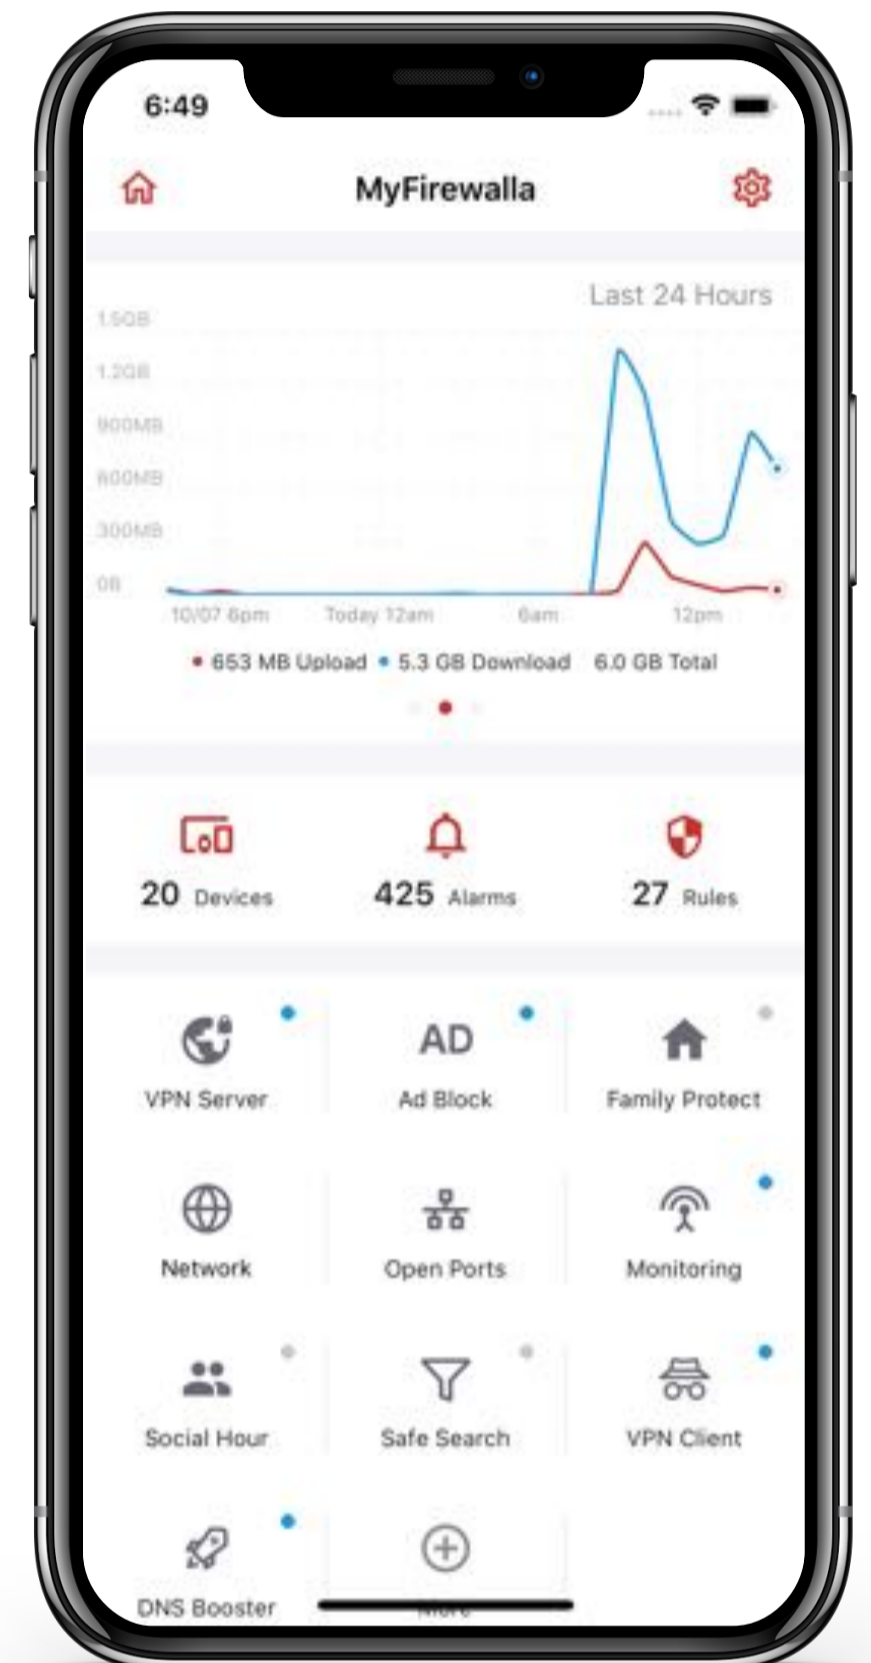

Activity and Parental Control

- Provides one-tap turn off control to all devices.
- Notifies you and blocks malicious and adult content.
- Blocks specific activities on any device (for example, block gaming for one hour).
- Integrated safe search to filter out offensive content from search results.

Privacy Protection

- Protects your privacy on the road, in coffee shops, or any public Wifi with our built-in **VPN server**. You'll access the web just as if you are at home.
- Our built-in Adblock feature lets you enjoy an ad-free environment on every single device you use.
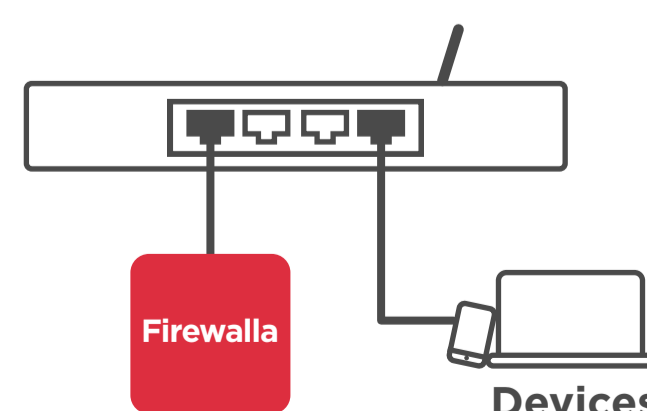

Additional Features

- Advanced GEO-IP Filtering
- Device management
- Easily view, allow, block, and archive alarms
- Bandwidth Usage (Hourly, Daily, Monthly)
- DDNS allows you to safely expose internet services
- Content Filtering and activity detection
- Multiple apps manage one Firewalla
- Internal and External vulnerability scans

Simple to Use

Cyber security shouldn't be complex and intimidating. We believe with the right software, cyber security can be made as simple as tapping on a few buttons.

Easy to Install
