

Enhance Building Entry Experience with Smartphone-based Building Access

- See who is at the entrance before answering the call
- Video calling with visitors before buzzing them in
- Issue temporary keys for guests and visitors
- Flexible access control using RFID cards, NFC, Bluetooth, or facial recognition
- Instant notifications of incoming calls
- Motion detection which helps prevent crimes
- Support standard phone calls

Support Mobile App or Standard Phone Calls

By installing the SmartPlus App on their smartphones, residents can talk to visitors anywhere, anytime, and never miss a call. Residents without smartphones can still talk to and unlock doors for visitors through a standard phone call.

Advanced Door Entry Options

Akuvox SmartPlus offers flexible access control methods, including unlocking doors remotely via the SmartPlus App, RFID cards, facial recognition, NFC, and Bluetooth. NFC and Bluetooth access control can be used without an internet connection.

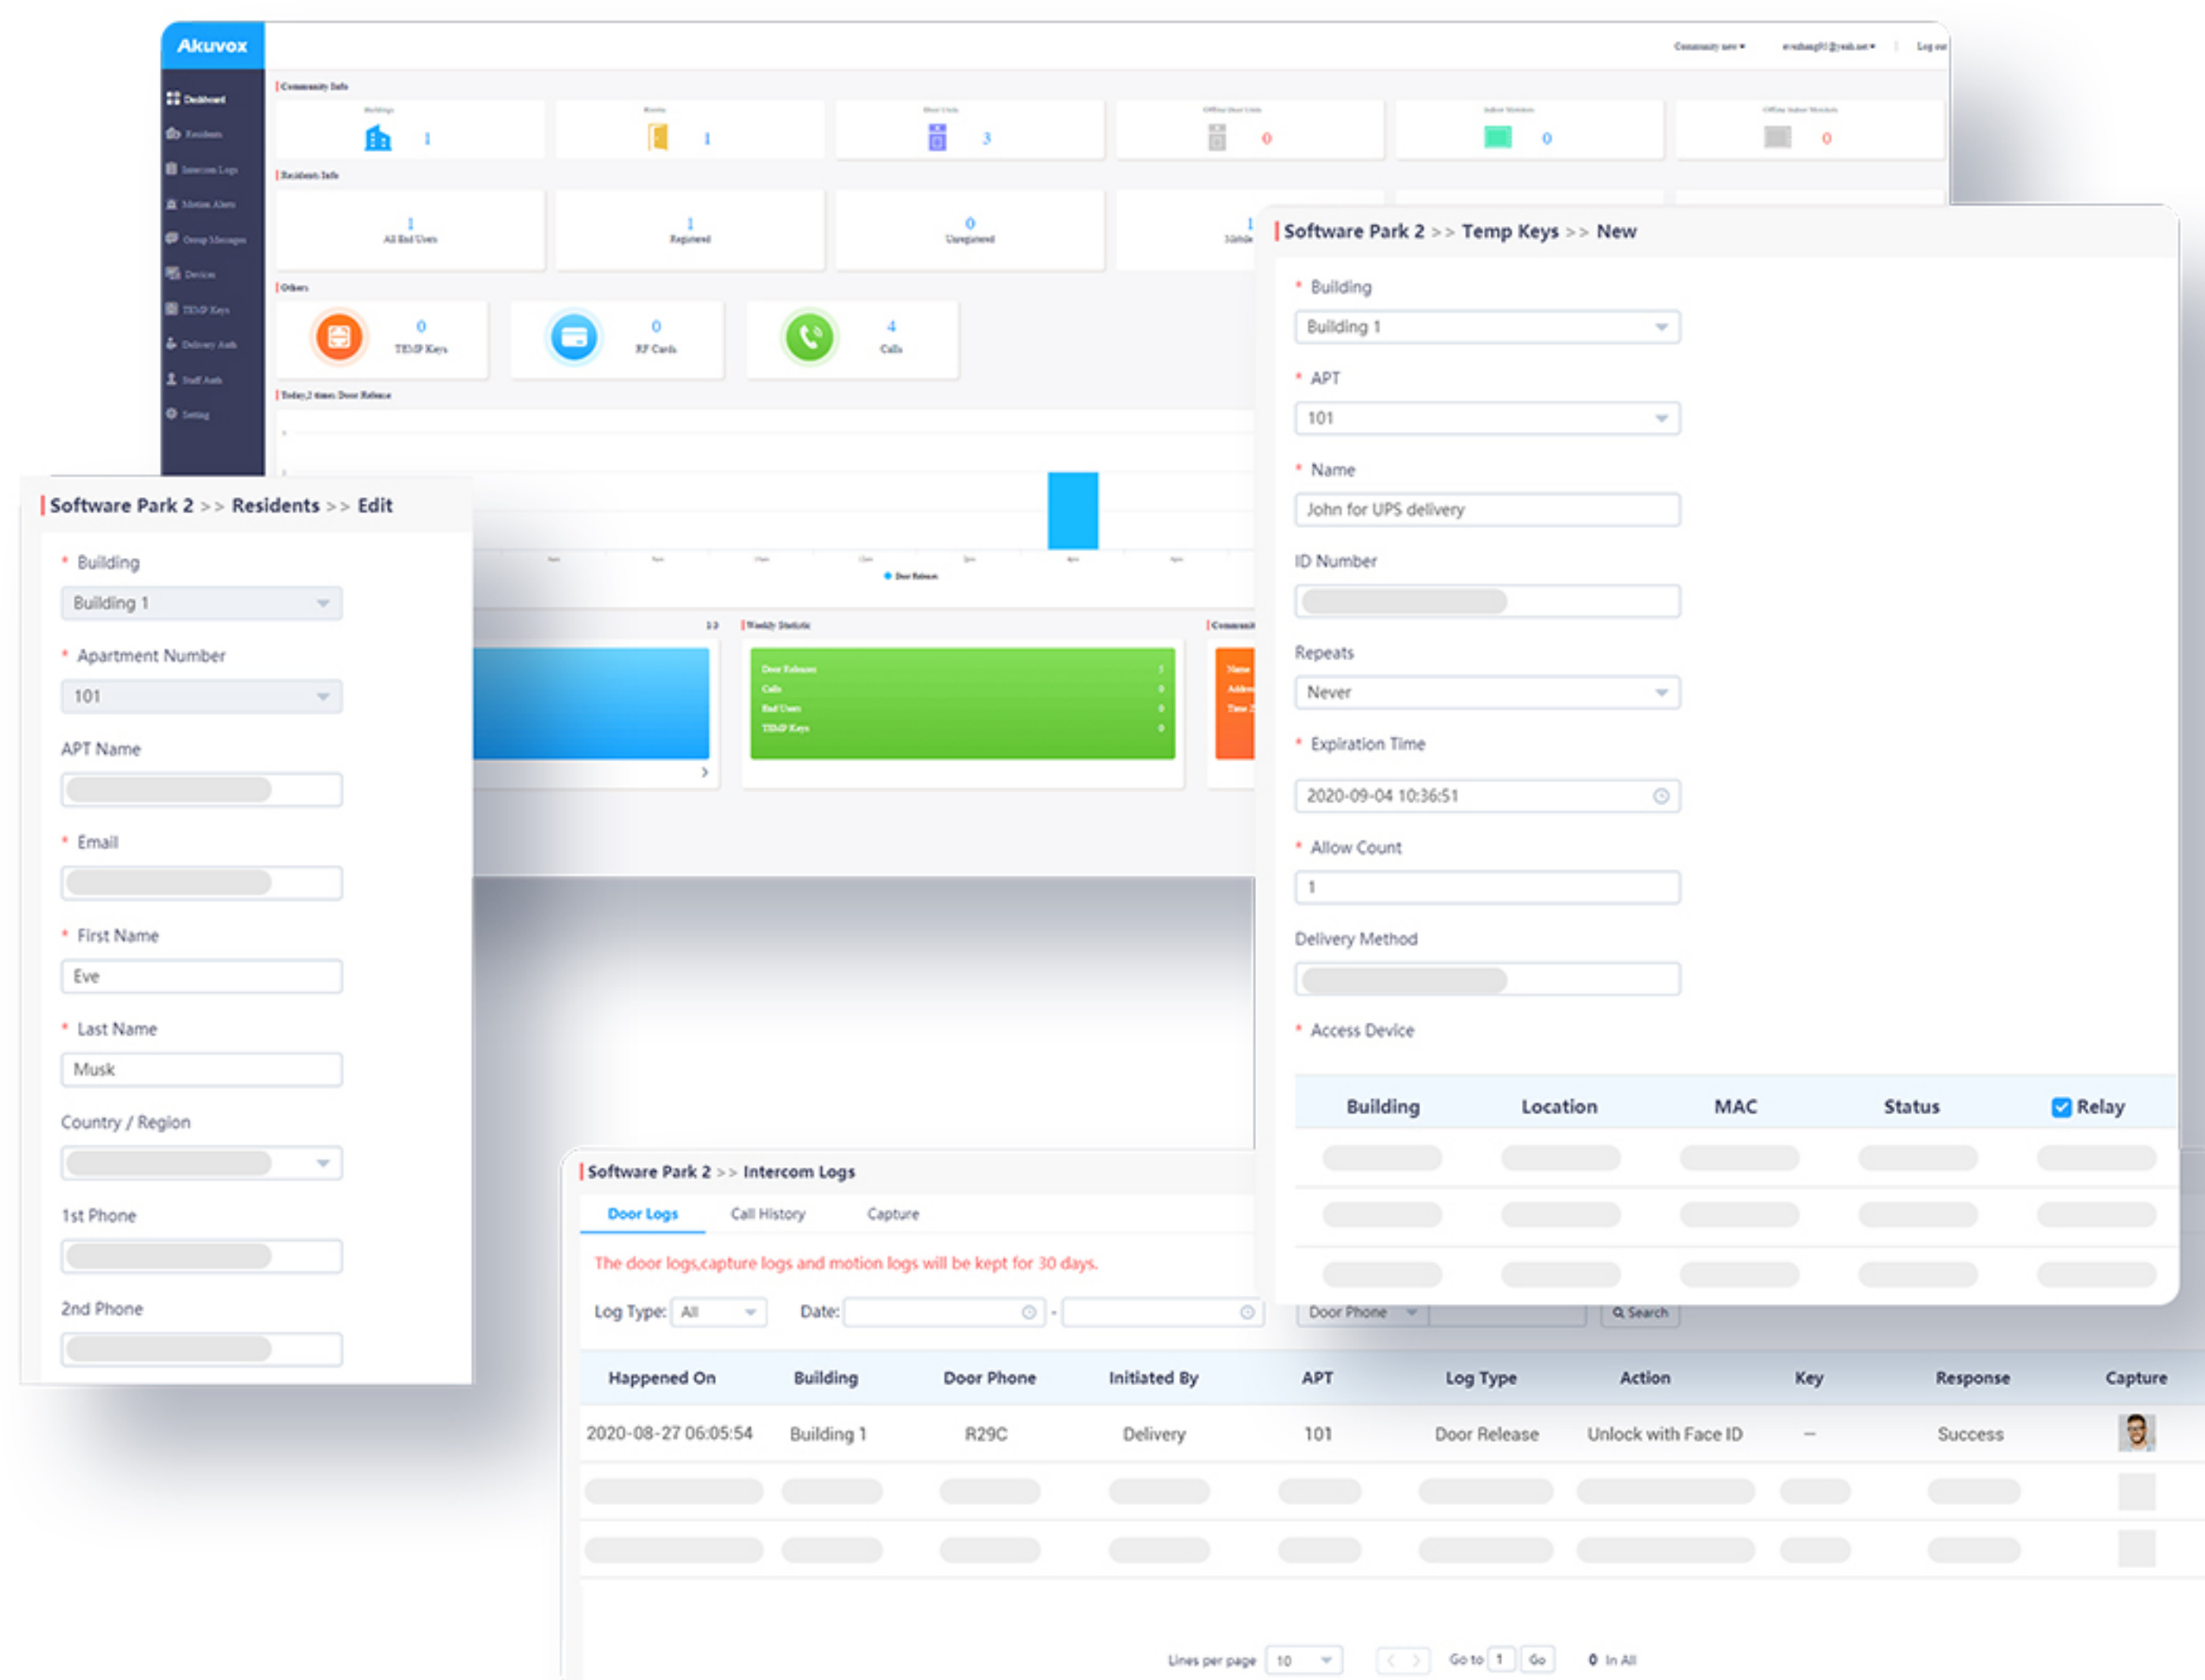

Temporary Keys

Residents can issue time-limited QR codes that allow guests or visitors to scan at the intercom to get building access, a perfect feature for service providers such as house cleaners, dog walkers, and food delivery people.

Simplify Property Access Management and Increase the Value of Properties

- Increase the value of properties
- Manage all properties centrally and remotely from a web portal
- Access to time- and date- stamped photos of all door entries
- Assign time-limited PINs to delivery people
- Easy posting of community announcements
- A wide selection of intercom devices to suit different budgets

Increase the value of properties

Offering tech-forward property access methods and featuring stylish touchscreen door phones, Akuvox SmartPlus helps increase the value of properties.

Easy posting of community announcements

With only a few steps on the Property Management Portal of Akuvox SmartPlus, property managers can send community notices in bulk remotely to residents, who will receive instant notifications on the SmartPlus App and their indoor monitors.

A wide selection of intercom devices to suit different budgets

Akuvox offers a wide selection of smart door phones and indoor monitors that meet the various application requirements and budgets of property managers.
